

## LESSON PLAN

**For the week of:** February 2-6, 2014      **Teacher:** Mrs. Collins      **Subject:** Honors Algebra 1      **Grade:** 8

	<b>Monday</b>	<b>Tuesday</b>	<b>Wednesday</b>	<b>Thursday</b>	<b>Friday</b>
<b>Content Standard</b>	1.04g Solve exponential equations.  4.05 Graph and evaluate exponential functions using tables, graphs and algebraic properties to solve problems involving growth and decay.	1.04g Solve exponential equations.  4.05 Graph and evaluate exponential functions using tables, graphs and algebraic properties to solve problems involving growth and decay.	<b>Chapter 7 Test</b>	1.01d Add, subtract, multiply, and divide polynomials.	1.01d Add, subtract, multiply, and divide polynomials.
<b>Biblical Integration</b>	How do the mathematical concepts of exponents, multiplication, division, negative, and rational numbers communicate attributes of God?				
<b>Bellwork</b>	Puzzle	Puzzle	No Puzzle	Puzzle	Puzzle
<b>Instructional Strategies</b>	Students will prepare for the Chapter 7 Test by completing a Study Guide.	Students will prepare for the Chapter 7 Test by going over and studying the Chapter 7 Study Guide.	<b>Chapter 7 Test</b>	Students will learn to add and subtract polynomials.	Students will learn to multiply a polynomial by a monomial.
<b>Homework</b>	Study Guide HW grade due Tuesday	Study for Chapter 7 Test	No HW  Chapter 7 Test	pg 468-469 20-42 even	pg 475 18-28 even, 32-40 even
